BT200AH170EG

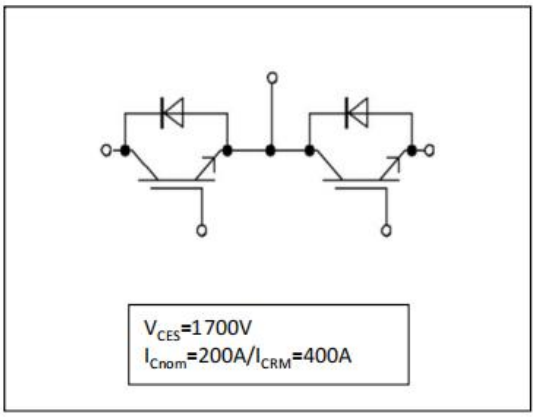

General Description

The BT200AH170EG is an 1700V 200A IGBT Half Bridge Module with operating voltage is higher than 1700V.

Features

- 1700V Trench+ Field Stop technology
- Freewheeling diodes with fast and soft reverse recovery
- VCE(sat) with positive temperature coefficient
- Low switching losses

Applications

- Motor/Servo Drives
- UPS
- High Power Converters
- Photovoltaic

Parameters

Type	V_{CE}	I_C	T_{vjmax}	Details page
BT200AH170EG	1700V	200A	150°C
