BD015DA060DB

Features

- Integrated 6 low-loss IGBTs(600V/15A)
- Integrated high voltage gate drive circuit(HVIC)
- Built-in temperature output
- Insulation class 1500Vrms / min
- High reliability and thermal stability,good Parameter consistency
- Built-in fast recovery bootstrap diode with current Limiting resistor
- Built-in under noltage protection and over temperature, Over current protection and temperature output

Applications

- Air conditioning compressor
- Refrigerator compressor
- Frequency converter
- Air cleaner

CONFIDENTIAL
